

Los Altos Educational Foundation Annual Report 2018-19

The Los Altos Educational Foundation is a catalyst for educational excellence for students throughout the Los Altos School District. We believe strong schools are the foundation of a thriving community.

Leadership Message

“We are awed by the talented students in LASD and by your commitment to supporting excellent schools.”

- Heather Macdonald & Laura Teksler

Whether it is the PE teacher that gets your second grader active, the junior high music elective that is the highlight of your son’s day, or the support your daughter’s teacher gets in effectively teaching STEM concepts, LAEF-funded programs are vital to providing every child in LASD with a well-rounded education. On behalf of the Board of Directors and staff, we thank you for your generous donations which benefit your child, and every student, in LASD’s seven elementary and two junior high schools. **Those donations enabled LAEF to contribute \$3.1 million to LASD in the 2018-19 school year, funding teachers and staff for STEM, Wellness, Literacy, and Arts.**

This spring we were inspired by a group of high school seniors who shared their stories about the profound impact LAEF-funded programs had on them and how the teachers and staff that delivered those programs inspired them. Many of those students are going on to study in those areas in college. It was a true testament to the difference your donations make well beyond the current school year.

We are awed by the talented students in LASD and by your commitment to supporting excellent schools. In this annual report, we highlight how your generosity has positively impacted the educational experience of every child in LASD. We look forward to partnering with you again in the 2019-2020 school year. We appreciate your support.

With gratitude,

Laura Teksler, 2018-19 Board President, LASD Parent Alumna

Heather Macdonald, Executive Director

“Through our strong partnership with LAEF, students in LASD receive a world-class education! Thanks to donors like you, our district consistently ranks in the top 1% of more than 1,000 districts across California. Support for LAEF is support for all our students in LASD.”

-Jeffrey Baier, Superintendent, LASD

LAEF Funded Programs

LAEF's annual grant helped the Los Altos School District deliver a well-rounded learning experience for all TK-8 students by funding teachers and staff for **STEM, Wellness, Literacy, and Arts** in elementary school and junior high. New this year, LAEF funded mental health counselors.

Funding priorities for the annual grant were based on feedback from the LAEF parent survey and through strategic discussions with LASD.

STEM

WELLNESS

LITERACY

ARTS

Funded Programs

"We believe our annual donation to LAEF is one of the most important donations we make. Its impact - bringing programs such as STEM, computers, music, and art into the classrooms - is essential to the development of our children."

- Ashley & Rich Kraska, Almond parents

The STEM program provided students with resources to learn about robotics, engineering and 3-D printers, as well as the opportunity for hands-on exploration and individual experiments.

STEM Programs

STEM

STEM experiences deepened each child's hands-on learning in science, technology, engineering, and math.

COMPUTER SCIENCE

Each child learned computer science basics and expressed their creativity through code.

Wellness Programs

PHYSICAL EDUCATION

Certified PE instructors helped develop each child's motor skills and understanding of health and fitness.

MENTAL HEALTH

On-site mental health counselors were available to support students.

Literacy Programs

LIBRARY

Librarians assisted each child in discovery and research and provided resources and guidance.

LITERACY

Literacy aides assisted classroom teachers to provide 1st and 2nd graders with additional reading support.

Arts Programs

ART

Trained art docents nurtured each child's creativity through artistic expression and appreciation of art.

MUSIC

Instrumental and vocal music study improved each child's language development and fostered love of music.

Junior High Electives

ELECTIVES

With a wide range of choices, each junior high student could personalize his/her learning.

Program Highlights

"When I create art I feel like I can do anything."

- 3rd Grader at Almond

Students participated in exciting, well-integrated, student-centered STEM projects

LASD's STEM (Science, Technology, Engineering, and Math) program fosters innovation and critical thinking for students. In the 2018-19 school year, LAEF's annual grant was the leading source of funding to make STEM a reality in our schools. Every elementary school had a STEM IST (Instructional Support Teacher) and a STEM lab and/or Makerspace. STEM ISTs delivered professional development to teachers, and helped them integrate STEM with their cross-discipline instruction. The STEM program provided students with resources to learn about robotics, engineering and 3-D printers, as well as the opportunity for hands-on exploration and individual experiments. Elementary school students showcased their work at STEM Expos and a CSTEM Showcase, and junior high students heard from industry leaders on STEM Career Day.

Students explored art and developed visual literacy by participating in Art Docent lessons

LAEF funded the Los Altos Art Docent program, which is unique to LASD. The program taught students to explore art through appreciation and participation. Led by a dedicated group of trained volunteers, it offered over 50 art lessons in every elementary school classroom and provided an opportunity for students to show their work at the Spring Art Show. Art education developed visual literacy - the ability to interpret, use, appreciate, and create - using both conventional and 21st-century media in ways that advance thinking, decision making, communication, and learning.

Jr high students personalized their education by choosing from a wide variety of electives

LASD's junior high schools provided students with a well-rounded education through a combination of core subjects and electives. LAEF's annual grant helped fund junior high electives such as band, photography, robotics, world languages, and many more. The electives gave students an opportunity to learn and develop important life-skills including leadership, critical thinking, creative design and awareness of world languages and cultures.

“In addition to the rigorous curriculum we provide in core subjects like Math, English, Science, and History, we offer a varied selection of electives that we consider critical to empowering our students with a well-rounded educational experience. My staff and I are grateful to LAEF for its continued financial support of junior high electives such as foreign languages, computer science, art, drama, music, and leadership. Our students truly benefit from the diverse set of courses they take.”

- Keith Rocha, principal of Egan Junior High School
